

Parkes Little Athletics

North Parkes Oval

Synthetic Grass & Rubber Surfaces
3 Tepko Road
Terrey Hills NSW 2084

To Whom It May Concern:

In 2007, Parkes Little Athletics club decided to relay their long jump tracks. We sourced advice from many different companies claiming their product was superior. The problem was that their products just did not meet our budget requirements.

We then spoke to the team at Synthetic Grass and Rubber, and we felt the Rubber Wet Pour product they recommended met both our needs and budget. The team provided excellent service and a speedy installation.

After the Rubber Wet Pour had cured, we had a trial run, with all participants giving it the big thumbs up.

Soon after installation, we hosted our annual carnival. All teams said it was great to run and jump from.

I would have no hesitation in recommending Synthetic Grass and Rubber to anyone requiring a great product at an affordable price.

Kind regards,
