

Livvi's Place

Livvi's Place is the result of a unique partnership of three founding partners, Touched by Olivia Foundation, City of Canada Bay and Leighton Contractors. The inspiration for Livvi's Place came from very special friends and family of a little baby girl, Olivia, who passed away at 8 months from Lymphangioma.

Livvi's Place fulfils a dream for many children and their families who have experienced frustration in finding fun, safe and accessible places to play. Livvi's Place gives kids the opportunity to play side by side with their brothers and sisters, their friends, their Mums, Dads, Grandparents and carers, regardless of ability. It is a place where kids can get up high, feel movement, feel textures, hear sounds, play things they've never seen before or been able to play, or just sit and quietly watch.

We are very proud of Livvi's Place. We thank you for being a special part of bringing Livvi's Place to life. A place where children and their families will experience a whole new world of play. A place where dreams are made, and more are created.

Thankyou

To Kellie and the Team
at Synthetic Grass and Rubber

Thank you so much for
your support, efforts and
contributions. You should quite
rightly feel proud for the way
you have helped improve the
lives of many, many families
with disabled kids

Thank you

John Perkins
