## **WARRANTY INFORMATION RUBBER WETPOUR**

We offer our clients a 12 month workmanship and installation warranty on the Rubber Wetpour installed by our trained staff, anything after this time would be considered a normal wear and tear issue.

---

## **CARE AND MAINTENANCE FOR YOUR RUBBER WETPOUR SAFETY SYSTEM**

Rubber Wetpour Surface is a new and innovative product, when laid as a dual layer, the surface complies with the Australian Standard ASNZ4422:1996.

You will initially need to regularly sweep or vacuum the surface to remove any excess rubber granules after installation. After this time, the maintenance is very minimal.

**DO NOT use any mechanical cleaning machines.**

**DO NOT use any chemical cleaning agents.**

**DO NOT use any lawn grooming equipment near the edges of rubber**

For any spillage's such as ice cream, milkshakes, etc. they should be removed as quickly as possible using a mixture of warm water and household grade detergent. This will assist in keeping your surfacing looking good for many years to come.

Regular grooming of the area using a broom, vacuum cleaner or blower will deter any build up of dust, dirt and grime.

If you have any questions regarding your new surface, please do not hesitate to contact us.
